Office of Commercial Space Transportation (OST)
This office encourages, facilitates, and promotes commercial space transportation activities by the United States private sector. Develops and manages the regulatory program and licensing process for commercial launch vehicle launches and associated services. Conducts safety research necessary to support sound and efficient safety standards and guidelines. Identifies and analyzes interagency, inter-agency, and international issues affecting commercial launch activities. Develops space transportation policies. Serves as the Department's primary contact with the space industry, public interest groups, the White House, the Congress, the public and other agencies with respect to commercial space transportation.

1. Directors and Associates Directors Subject Files/ General Correspondence File
Files signed and reviewed by high level administrators on program policies, directives, procedures, studies, reports, briefing papers, speeches, corporation, international organizations, Congress and other Federal agencies that relate to the administration and operation of OST.
