1. Gotham Web Site

New Item

Gotham is an internal FMCSA analysis system that utilizes selected extracts of MCMIS data and is only accessible through the DOT/FMCSA Intranet. Gotham imports census files, investigatory files, driver/vehicle safety violations and inspection data, and crash data from MCMIS for the purpose of delivering standard reports via the Intranet. Gotham supplies information and performance measures to field managers in all 52 Divisions, four Service Centers, and Headquarters. It is also used to develop custom analysis dealing with field and policy issues.
