Patients and Veterans will have the ability to print and to share selected data they enter with their healthcare providers and others. Authorized healthcare team members from the Veterans Health Administration and Department of Defense will be able to view select Patient Generated Data for the purpose of improving health and health care through shared decision making. The utilization of the data for clinical management, such as copying to the VA electronic health record (EHR) or documentation in the EHR related to the PGD are separate actions outside this schedule.
