*See attached revised
schedule per 2/16/01
email
from RT*

Web Based Application System Development Records

1. Web based application system development and project control files. Files, regardless of origin, containing project planning and approval documentation, such as projected data and similar materials accumulated in the preparation of web based application system design, including budget estimates, and cost justifications for appropriation. Project control files include memoranda, reports, and other records documenting assignments, progress, and completion of projects relating to the development and maintenance of web based application systems. Also includes software requirement information that relates to costs associated in the development of web based system applications.

TEMPORARY: Destroy 5 years after records are superseded or become obsolete.

2. Web based application system documentation files. Files, regardless of origin, containing information on software requirements, system specifications, output specifications, codebooks, file structure, user guides, testing results, and reports relating to the development and maintenance of web based application systems. Records also relate to applying system security and documenting periodic audits, reviews and recertification of the application. Documents on disaster continuity plans and risk analysis are also included.

TEMPORARY: Destroy 5 years after records are superseded or become obsolete.

3. Electronic mail and word processing system copies, regardless of origin.
 - a. Copies that have no further administrative value after the recordkeeping copy is made. Includes copies maintained by individuals in personal files, personal electronic mail directories, or other personal directories on hard disk or network drives, and copies on shared network drives that are used only to produce the recordkeeping copy.

TEMPORARY: Destroy/delete within 180 days after the recordkeeping has been produced.

- b. Copies used for disseminating, revising, or updating records that are maintained in addition to the recordkeeping copy.

TEMPORARY: Destroy/delete when dissemination, revision, or updating is complete.
