E. ANALYSIS OF RECORDS

This reappraisal will allow retirement and, where applicable,
immediate destruction of VA Forms 26-6716 which are maintained at
the regional offices.

Foreclosure on property guaranteed or insured by VA results in the property being assigned to the Property Management Division. Prior to 1983, VA Form 26-6716, Property Status Control Card, was prepared on each assigned case and was the only complete easy reference record of the pre-acquisition, acquisition, management and sale of the VA properties.

In July 1983, data contained on post-1979 cards was automated and captured in the Property Management System, thereby, eliminating the requirement to add to this file. The post-1979 cards are no longer of record value and should be destroyed immediately. Any information subsequent to 1983 will be captured in the system.

The original loan information contained on the pre-1979 cards is useful to the Committee on Waivers in the review of requests by veterans for waivers of debts which were established against them as a result of the foreclosures of their loans. The data are also useful in settling any conflicts regarding pricing and sales of properties in certain areas. For these reasons, the cards are being retained for the life of an average loan folder which is 35 years. This reappraisal is requesting the retirement of these cards as a group to the Federal records centers for the remainder of their retention period.

F. SOURCES OF INFORMATION

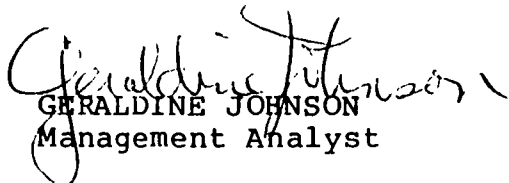

Request for Records Appraisal dated June 23, 1986

VA Form 3230 from Property Management dated July 23, 1986

Records Appraisal No. 84-11, Property Status Control Card File

G. CONCLUSION

The automation of this record series makes it unnecessary to retain the paper records. The entire file was not automated, thereby, requiring retention of pre-1979 cards under its present disposition authority. To free up space at the regional offices, the cards will be retired to the Federal records centers as a group for the remainder of the 35 year retention period.
