7. ITEM NO.

8. DESCRIPTION OF ITEM
With Inclusive Dates or Retention Periods

Department of Veterans Affairs
Veterans Health Administration

This request for records disposition authority is to expand the records composition for VA Inactive Medical Records to include the Perpetual Medical Records documents. Perpetual Medical Records will no longer be established as a separate record series.

As part of the last appraisal for the VA (Department of Veterans Affairs) Medical Records of Patients, National Archives Job Authority NI-15-87-4, Perpetual Medical Records and Inactive Medical Records, items 1c and 1d, respectively, were scheduled individually for retention and disposition with NARA (National Archives and Records Administration). The records are also listed separately in the Veterans Health Administration Records Control Schedule 10-1, items 136-5c and d and NI-15-90-571.

VA Medical Records of Patients contain medical records which document the medical care of individuals (Veterans and non-veterans; VA beneficiaries and non-VA beneficiaries) who are...

<tbody>
<tr>
<td>1</td>
<td>The Medical Records Folder File (or Consolidated Health Record) contains all professional and administrative material necessary to document the episodes of medical care and benefits provided to individuals by the VA health care system.</td>
</tr>
<tr>
<td>1a</td>
<td>The Medical Records Folder documents diagnostic examinations and definitive medical, surgical, psychiatric, and dental care or treatment rendered a patient (veteran, non-veteran, beneficiary non-beneficiary) at a VA health care facility. It contains in written and graphic form the diagnostic, treatment and sociological information compiled by various members of the medical care team who participated in the care of a patient during the course of treatment. It is intended to meet the legal, administrative, teaching and research needs of the VA medical staff, and provide a means of studying and evaluating the type of care rendered. VA and other monetary benefits are sometimes decided by use of information from the Medical Records Folder. Disposition: Retain in VA health care facility until 3 years after last episode of care, then convert to an Inactive Medical Record.</td>
</tr>
<tr>
<td>1b</td>
<td>Administrative Records Folder (Correspondence Folder) constitutes the active administrative records segment of the Medical Records Folder File. It contains documentation of the patient’s legal eligibility for VA medical benefits and other administrative documents relating to various episodes of hospital, nursing home, domiciliary, or outpatient care furnished at VA health care facilities.</td>

<td>Disposition: Retain in VA health care facility along with the Medical Records Folder until 3 years after the last episode, then convert to an Inactive Medical Record. The Perpetual Medical Records record is created by extracting certain documents from the Medical Record Folder File (or Consolidated Health Records), clinical and administrative segments, after a three year period of inactivity from the date of discharge or release of a patient from the last episode of care. It contains the following basic medical and administrative records for each episode of care: Application for medical benefits. Narrative treatment Summary, or equivalent. Record of hospitalization, or equivalent. Autopsy report for death case, if applicable. Records relating to release of information, requests to amend, records of denial access or disputes as required under the Privacy Act of 1974. In addition to the aforementioned medical documents, Perpetual Medical Records for Ionizing Radiation and Agent Orange claimants consist of VA Form 10-0020a, Ionizing Radiation Registry Code Sheet, VA Form 10-9009, Agent Orange Registry Code Sheet, progress notes, laboratory reports, followup letters, and other Ionizing Radiation and Agent Orange related records. This record is to be phased out as a separate record series, and new Perpetual Medical Records are not to be established after approval of this request.</td>
</tr>
<tr>
<td>1d</td>
<td>The new Inactive Medical Record consists of documents relating to various episodes of hospital, nursing home, domiciliary, or outpatient care provided by VA health care facilities. It also consists of documents pertaining to a patient's legal eligibility for VA medical benefits. This records series consists of Application for Medical Benefits, Narrative Treatment Summary (or equivalent), Records of Hospitalization (or</td>

</tbody>
</table>
equivalent), Operation Report and Tissue
Examination Report (if applicable), Progress notes,
Electroencephalograph Reports, Electrocardiograph
Reports, Autopsy Report (if applicable), Freedom of
Information Act and Privacy Act related records,
certain Ionizing Radiation and Agent Orange, and
other related administrative and medical records.

Disposition: Retire to the nearest servicing
Federal records center for storage. If not
recalled by the accessioning facility for
reactivation, destroy by witness disposal 72 years
after retirement (75 years after the last episode
of care).

Note: Inactive Medical Records already stored at
FRCs will not be recalled for consolidation with
their counterpart Perpetual Medical Records stored
at VA installations unless they are needed for
subsequent patient care. Perpetual Medical Records
already established at medical facilities are to be
transferred to FRCs under a one-time retirement
authority.

Note: No records covered by the NARS (National
Association of Radiation Survivors) Permanent
Protective Order will be destroyed until the order
has been rescinded and the retention period for the
records has expired.

Pursuant to The Privacy Act of 1974, each agency
record which is accepted by the Archivist of the
United States for storage, processing, and
servicing shall be considered to be maintained by
the VA and shall be subject to the provisions of
Title 44. The Archivist of the United States shall
not disclose the record except to the VA, or under
rules established by the VA.
