## OFFICE OF NATIONAL DRUG CONTROL POLICY

### RECORDS CONTROL SCHEDULE

The principal purpose of the Office of National Drug Control Policy (ONDCP) is to establish policies, priorities, and objectives for the Nation's drug control program, with the overall goal of significantly reducing the production, availability, and use of illegal drugs both here at home and abroad.

In order to achieve this goal, ONDCP is charged with producing the National Drug Control Strategy, which directs the Nation's anti-drug efforts and establishes a program, a budget, and guidelines for cooperation among the Federal, State, and local entities involved.

By law, the Director of ONDCP is also responsible for evaluating, coordinating, and overseeing both international and domestic anti-drug efforts by all executive branch agencies, and ensuring that such efforts sustain and complement State and local anti-drug activities. The Director advises the President regarding necessary changes in the organization, management, budgeting, and personnel allocation of all Federal agencies involved, and notifies the President if these agencies are not in compliance with their obligations under the National Drug Control Strategy.

ONDCP was created by the Anti-Drug Abuse Act of 1988 to advise the President on a national drug control strategy, a consolidated drug control budget, other management and organizational issues, and reauthorized by the ONDCP Reauthorization Act of 1998. The Office was established in the Executive Office of the President. With the enactment of the legislation, ONDCP assumed the responsibilities of the National Drug Policy Board, National Narcotics Border Interdiction System, and the White House Drug Abuse Policy Office.

## OFFICE OF THE DIRECTOR

ONDCP is headed by a Director, appointed by the President with the advice and consent of the Senate. The Director is responsible for annually promulgating a National Drug Control Strategy to be submitted to Congress by the President by February 1 of each year.
