I. Social Security Claim File

The purpose of this schedule is to consolidate Social Security claim file disposition authority into one media neutral schedule. The schedule provides authoritative instructions for the retention or destruction of claim file records related to Title II (Retirement, Survivors and Disability Insurance) and Title XVI (Supplemental Security Income for the Aged, Blind and Disabled) of the Social Security Act. It grants authority for the disposition of existing and future records. This schedule supersedes the retention schedules or parts of the retention schedules shown in section 9 of the SF-115 cover sheet.

The claim file contains material related to the request for or continuation of benefits/payments under the Titles noted above. Items in the claim file include but are not limited to the initial claim application, award/denial notice, supporting evidence and documentation for initial and continuing entitlement, various determination forms, changes in representative payees, overpayment/underpayment material, recordings of ALJ hearings, general correspondence, etc. Claim files involving blindness or disability will also include disability related information including documentation of the disability determination, supporting medical development and evidence, new medical material received after a medical decision has been made, continuing disability reviews, and other disability evidence.

Information in the claim file is used throughout SSA for purposes of determining initial or continuing eligibility for benefits, the amount of benefits and the appropriate payee for benefits; reviewing claims through the administrative appeals process; ensuring proper benefit payments; and answering inquiries about claims.
