<td><strong>State Agency Trailer Material</strong></td>
</tr>
</tbody>
</table>

This material consists of medical evidence received by the state agency after the determination has been made on a particular disability claim. The material does not affect the determination in any way and is in some cases duplicative of material filed in the disability claims folder. It is considered to have no future relevancy to the claim and is, therefore, not filed in the claims folder.

Destroy in the state agency after it has been determined that the material does not have any bearing on the claim.
