	<p align="center"><u>Records Retention and Disposal Schedule</u> <u>Office of Assessment</u> <u>Quality Enumeration Files</u></p> <p>These files document the quality assurance sample studies for the enumeration process. The files consist of copies of the numident* printouts and microprints of the corresponding forms SS-5, Application for a Social Security Number Card. They are maintained by sample period and also include form SSA-3978, QA Operations SSN Enumeration Process Tally Sheet, or its equivalent, which is used both as a record of the types of enumeration errors found and as a data entry form for creating a management information data base and reporting system under an outside contract. The data base is maintained by the contractor for 1 year; reports reflecting national and regional data are prepared and sent to SSA. If an enumeration error is found, a form SSA-3764, Notice of Error in Social Security Number Records, is completed. The original is forwarded to the Office of Central Operations (OCO) for action and a copy is maintained by the Office of Assessment for follow-up after 6 months.</p> <p>*Social Security number identification printout</p> <p align="center">MASS DATA CHANGE SHEET NOT REQUIRED</p>		<i>4 items</i>

INSTRUCTIONS

General Instructions:

Use Standard Form 115 (obtainable from supply depots of the Federal Supply Service, General Services Administration) and the continuation sheet Standard Form 115a (obtainable from the Records Disposition Division, Office of Federal Records Centers, National Archives and Records Service, Washington, D.C. 20408) to obtain authority to dispose of records or to request permanent retention of records. Detach the fifth copy from the set and keep as your reference copy. Submit the first four copies of the set to the National Archives and Records Service. One copy will be returned to the agency as notification of items that are authorized for disposal. Items withdrawn or not approved for disposal will be so marked. Form SF 115 requires Comptroller General concurrence must be accompanied by a notification of approval from CAG.

Specific Instructions:

Entries 1, 2, and 3 should show what agency has custody of the records that are identified on the form and should contain the name of the department or independent agency, and its major and minor subdivisions.

Entries 4 and 5 should help identify and locate the person to whom inquiries regarding the records should be directed.

Entry 6 should be signed and dated on the four copies by the agency representative. The number of pages involved in the request should be inserted.

Box A should be checked if the records may be disposed of immediately. Box B should be checked if continuing disposal authority is requested or if permanent retention is requested. Only one box may be checked.

Entry 7 should contain the numbers of the items of records identified on the form in sequence, i.e., 1, 2, 3, 4, etc.

Entry 8 should show what records are proposed for disposal.

Center headings should indicate what office's records are involved if all records described on the form are not those of the same office or if they are records created by another office or agency.

An identification should be provided of the types of records involved if they are other than textual records, for example, if they are photographic records, sound recordings, or cartographic records.

An itemization and accurate identification should be provided of the series of records that are proposed for disposal or retention. Each series should comprise the largest practical grouping of separately organized and logically related materials that can be treated as a single unit for purposes of disposal. Component parts of a series may be listed separately if numbered consecutively (a, b, etc.) under the general series entry.

A statement should be provided showing when disposal is to be made of the records, thus:

If immediate disposal is requested of past accumulations of records, the inclusive dates during which the records were produced should be stated.

If continuing disposal is requested for records that have a future life, will continue to occur, etc., the retention period may be expressed in terms of years, months, etc., or in terms of future actions or events. A future action or event that is to determine the retention period must be objective and definite. If disposal of the records is contingent upon their being microfilmed or otherwise reproduced or recorded on machine readable media, the retention period should read, "Until ascertained that reproduced copies or recordings have been made in accordance with GSA regulations and are adequate substitutes for the paper records." Also, the provisions of FPMR § 101-11.5 should be observed.

Entry 9 should be checked if samples are submitted for an item. However, samples of the records are not required unless they are requested by the NARS appraiser. If an item has been previously submitted, the relevant job and item number should be entered.

Entry 10 should be left blank.
