	The Commission of Fine Arts was established by Congress on May 17, 1910, to advise the President, Members of Congress, and various governmental agencies on matters pertaining to the appearance of Washington, D.C. (36 Stat. 371; 40 U.S.C. 104, 106). This legislation provided the Government with a permanent commission whose members are qualified to give expert advice on matters relating to art. The legislation directs contracting officers of the Federal and District Governments to call for the Commission's advice on such matters. In brief, the Commission's duties and functions include aesthetic review of: public works in the National Capital area; design and material for monuments, memorials, and certain designated buildings; land to be acquired for park purposes in the District of Columbia, Maryland, and Virginia; and building applications in the Old Georgetown and Shipstead-Luce areas.
