Board of Governors of the Federal Reserve System (Board)

Home Mortgage Disclosure Act Data and Related Records

The Home Mortgage Disclosure Act (HMDA), 12 U.S.C. § 2801 et seq. as implemented by the Board's Regulation C, requires banks, savings associations, credit unions, and for-profit mortgage lending institutions (hereafter referred to as Reporters) to report data on residential loan applications. The purpose is to provide public loan data that can be used to assist:

- in determining whether financial institutions are serving the housing needs of their communities;
- public officials in distributing public-sector investments so as to attract private investment to areas where it is needed; and
- in identifying possible discriminatory lending patterns.

All Reporters submit their HMDA data directly to the Board. The Board maintains, operates, and manages the HMDA database on behalf of all participating agencies, including the Office of the Comptroller of the Currency, the Federal Deposit Insurance Corporation, Office of Thrift Supervision, National Credit Union Administration, and the FFIEC. The Board prepares the disclosure forms required by HMDA, provides them to reporters, compiles aggregate data and aggregates the data by Metropolitan Statistical Area (MSA), and makes HMDA data available to the public as required by law. The Board's responsibility for collecting and managing HMDA data is described in the attached Memorandum of Understanding with the other participating agencies identified above.

1. Master HMDA Data Files.

HMDA data are derived from the Loan Application Register (LAR) and Transmittal Sheets (TS) submitted to the Board.¹ Reporting panel data² include lists of the Reporters' MSA's. There are two categories of data, "final" and "ultimate". Unrestricted "final" versions of data are made available to the public. "Ultimate" files are not made available to the public and include adjustments to the data incorporated in the 18 months following the reporting deadline.

A. Non-restricted³ ultimate (TS and LAR) data file.

DISPOSITION: Permanent. Cut off when revisions to data are completed. Transfer copy of the data with documentation to NARA annually in accordance with 36 CFR 1228.270.

¹ Historically, LAR and TS Sheets were submitted by each financial institution to the appropriate supervisory agency, but now these documents are directly submitted to the Board.

² Panel data include information about Reporters such as their names and addresses.

³ Non-restricted files contain no personal information that could identify particular borrowers.

B. Non-restricted final (TS and LAR) data file.

DISPOSITION: Permanent. Cut off when revisions to data are completed. Transfer copy of the public use data with documentation to NARA annually in accordance with 36 CFR 1228.270.
