1.	<p><u>Unscheduled Records Of Willis S. MacLeod, Relating to the Development of Standardized Federal Procurement.</u> (Accession 137-59A-1677, Boxes 1-11, 17-58, incl. 31A).</p> <p><u>Subject Files Relating to the Federal Catalog System, 1942-1947.</u> Accession 137-59A-1677. Boxes 1-11.</p> <p>Consists of correspondence, memoranda, reports, minutes of meetings, charts, and publications from other federal and non-federal agencies. Relates to the creation of a Federal Catalog System, which was aimed at standardizing procurement in the United States Government. The feasibility of establishing such a catalog was debated from near the end of World War II until 1947, when it was decided that one should be developed. The actual compiling of the catalog was a major interagency project that lasted from 1948 until about the end of 1952. This series provides basic documentation for the feasibility studies and interagency discussions that preceded the compilation of the catalog. These records document the highest level of discussion and decision-making regarding the catalog.</p>		<u>3 items</u>

These records provide the official documentation for the Standards Division for the years 1945-1952; two folders of materials date back to 1921. Among other things, the records document the compilation of the Federal Catalog, a major interagency undertaking that required five years and millions of dollars to complete; the result was a modern, standardized, U.S. Government procurement system. These records are arranged in segments, each documenting a major facet of work by the Standards Division or a major instance of cooperation with another agency.</p> <p>Closed series: volume - 34 cubic feet</p> <p>Disposition: PERMANENT.
