	<p>The TVA Emergency Response Unit Weekly Inspection Sheet was created by the Special Health Services Branch in 1984. It is used as a verification check-off system, required by the Division of Medical Services, to ensure ambulances at project sites are properly equipped. The inspection sheet includes the name of the TVA facility, vehicle tag number, and date of inspection, and requires the signature of the inspector. The following items are inspected on the ambulances: oxygen, IV set-up kit, anaphylaxis kit, ambulance supplies, immobilizing equipment, vital signs equipment, miscellaneous articles, trauma kit, and poison antidote kits. Inspections are made weekly and after each emergency run, and submitted quarterly to the Emergency Medical Service Unit.</p> <p>TVA's Office of General Counsel requests that these inspection sheets be kept 10 years from date of inspection for documentation purposes in case of possible claims against TVA.</p> <p>Volume to date is one cubic foot, the records are filed alphabetically by project site.</p> <p><b><u>DISPOSITION:</u></b></p> <p>Destroy 10 years from date of inspection.</p>
