| ### ANALYSIS STUDY REPORTS  The General Studies Section of the Distributor Service Branch prepares continuing reviews and forecasts of individual distributor financial operations for use in determining the reasonableness of costs and adequacy of retail rate levels and revenues.  A collection of statistical data on TVA power service area and for forecasting power loads by delivery point and by distributor service area is generated by data bases as follows:  1. Retail Revenue Analysis - The Analysis Section generates this information from Electric Sales Statistics (ESS) data base and furnishes the General Studies Section a computer printout which contains various rate structures. Dates covered in this report are from 1962 to present.  2. Street Lighting Analysis - The General Studies Section uses data which is supplied by the Power Accounting Branch along with street lighting investment data which includes costs related to street lighting sales, kilowatt hours and distributor charges made to customers. A computer printout is generated which computes a street lighting investment charge. Dates covered in this report are from 1978 to present.  3. Historical Listing - The General Studies Section uses data which is supplied by the Power Accounting Branch from the data supplied from distributor annual reports for a Historical Listing Report. A report is done once a year and dates covered in these reports are from 1976 to present.  18CFR - 125.3.51 and 125.3.61 are not applicable to these records.  DISPOSITION:  A. Paper Copies - Destroy in agency when microfilm has been verified.  B. Microfilm - Destroy in agency when no longer needed for reference.  | Request for | uest for Records Disposition Authority—Continuation  |   |           | PAGE OF             |  |
