2 Management Training and Development (Fast Track) Program Assessment and Selection Data

This record series contains the Assessment Centers' raw data of evaluations, tests, and information about individual participants selected as participants into the Management Training and Development (Fast Track) Program. Of the 273 nominees who went through the Management Assessment Center, 50 were selected for the program. The program began in May of 1979 and ended in 1983. This material contains only the assessment and selection of the participants. All other correspondence pertaining to the development of the program is in the official Division of Personnel Correspondence Files (PFC), which will be scheduled at a later date.

The TVA Office of the General Counsel advised that the assessment and selection documents should be kept for a period of not more than 3 years. This retention has been met and the program no longer exists. The total volume is 7.5 cubic feet. The inclusive dates are May 1979 through 1983.

DISPOSITION:

Destroy when 3 years old.
