

INACTIVE - ALL ITEMS SUPERSEDED OR OBSOLETE

Schedule Number: N1-142-89-006

All items in this schedule are inactive. Items are either obsolete or have been superseded by newer NARA approved records schedules.

Description:

Item A was accessioned by NARA, National Archives Identifier 37513.

Item B was shown in the N1-142-10-001 crosswalk page 3 (but incorrectly linked to N1-142-97-010) to be superseded by N1-142-10-001, item 16d2.

Item C was presumably destroyed during processing of the accessioned collection.

1. EDUCATION AND PROMOTIONAL FILMS OF TVA AND THE TENNESSEE VALLEY

and 35mm

This series consists of a collection of 16mm [↑]films showing various TVA-related subjects. The films were made as a form of education and promotion of major TVA undertakings, and have been used mainly to be loaned to schools and other interested groups. Some of the categories of subjects covered in the films are specific phases of TVA history, TVA projects, environmental concerns, and health and safety concerns. The older films are silent with captions and the newer films have sound.

There is either an original negative or an internegative for ^{most} ~~all~~ of the films. Most of the original negatives or internegatives are located at the Motion Picture Film Laboratory in Memphis, Tennessee, and the copies are located in the TVA Public Affairs office in Knoxville. The consecutive dates are 1933 to the 1980s. The approximate volume is 30 cubic feet, ~~however, this includes as many as four copies of each film.~~
There are extra prints of most films.

Shown below is a list of film titles:

- Valley of the Tennessee
- Wilson Dam School
- Now That the Dinosaurs Are Gone
- The River
- Power from Paradise
- There is a Valley
- Shore Lines for Progress
- TVA
- Story of TVA
- Discovery
