1 Cost Allocations for Multipurpose Dams and Reservoirs.
See attached description.

Copies sent to agency, NNA, 4NW 4/15/92

1. COST ALLOCATIONS FOR MULTIPURPOSE DAMS AND RESERVOIRS

This series includes the original work sheets, calculations, and correspondence for organizational cost allocations of TVA dams and reservoirs. All of these allocations were approved by the President of the U.S., and they are dated from 1936 to the late 1970's. Similar records will be created if dams or reservoirs are built in the future. A Cost Allocation Committee consisting of top TVA managers approves the organizational cost allocations prior to their submittal to the President for approval. These are the records created by the support group for the Cost Allocation Committee, and are the only source of information when questions arise about how the costs were allocated to TVA organizations. If TVA decides to reallocate organizational costs for dams and reservoirs, these records will be needed to show how the original organizational cost allocations were determined. The records are filed in notebooks by year and by project name. The approximate volume is 12 cubic feet.

DISPOSITION

Maintain in agency for the life of all related facilities, then destroy. Transfer all records dated through 1980 to the TVA Knoxville Records Center upon approval of this schedule. Transfer records dated 1981 and continuing to the Knoxville Records Center when no longer needed for frequent reference.
