   TITLE
   ASSISTANT TVA ARCHIVIST

7. ITEM NO.

8. DESCRIPTION OF ITEM AND PROPOSED DISPOSITION
   TVA Lake Improvement Plan Records
   (See attached page)
1. TVA LAKE IMPROVEMENT PLAN RECORDS

In 1987, the TVA Board of Directors requested the first reevaluation of operating priorities of the Tennessee Valley Authority reservoir system since it was designed in the 1930's. This reevaluation was conducted in compliance with procedures of the National Environmental Policy Staff, and resulted in recommendations to improve water quality, recreation, hydropower generation, commercial navigation, and flood-risk reduction. Resource Group employees are in the process of implementing the recommendations, and the improvements resulting from this study will have a positive impact on TVA's reservoir system for many years in the future.

This file contains all board briefings and supporting documentation for the final environmental impact statement. The environmental impact statement will be maintained by the Environmental Quality Staff until any related facilities are retired (NC1-142-80-14, Item 1.a). The file also contains information on lake levels, recreation plans, public meetings, and contracts with individual reviewers. The approximate total volume is 18 cubic feet, and the inclusive dates are October 1987 to February 1991.

DISPOSITION

PERMANENT. Retire to Knoxville Records Center upon approval of this schedule. Transfer to NARA in CY 2011.

Retire to Federal Records Center upon approval of this schedule.

Transfer to NARA in CY 2001.
