TRAINING FILMS OF TVA TRANSMISSION LINE CREWS

This series consists of a collection of 16mm films produced by Power System Operations in the 1960's and 1970's, showing various TVA transmission line construction and maintenance activities. The films were produced to train and inform employees performing and supporting these construction and maintenance activities. Some of the films are instructions on performing specific activities while others illustrate the importance of construction and maintenance programs to the TVA mission.

There are four cu. ft. of these films and they are located in the Chattanooga Records Center.

Shown below is a list of titles:

1. Madison 500 kV Substation - Fire Protection Operations
