EMPLOYEE CONCERN PROGRAM

1 EMPLOYEE CONCERN SPECIAL PROGRAM

~~In early 1985 WBN was prepared to load fuel, it became apparent to TVA and the NRC that there was a gap in communications between management and nonmanagement. The TVA Board of Directors initiated a program to investigate employee concerns. Quality Technology Corporation (QTC) was selected to interview employees. Approximately 5,900 employees were interviewed. TVA took over the program in 1986. The project was called the Employee Concern Special Program (ECSP). Concerns were grouped into the following categories to facilitate investigation: Construction, Engineering, Operations, Material Control, Welding, Intimidation and Harassment, Management and Personnel, Quality Assurance/Quality Control, and Industrial Safety.~~

~~In February 1986, the Employee Concerns Task Group (ECTG) was formed to evaluate, investigate, and negotiate corrective action plans and prepare reports on all employee concerns and other outstanding issues received prior to that time. Concurrent with this, TVA initiated a new program for resolving additional concerns. These records are covered by NARA job N1-142-93-15. Prior to 1992, this program was called the ECP.~~

~~The ECSP files will be used as a baseline for future investigations. All of the ECSP records were transferred from WBN to Chattanooga and are under the control of the ECSP/Close Out Team. They will remain at this location until management deems it prudent to release the files for storage. In 1996 these records were filmed.~~
