I.1 CONFRONTATIONAL SITUATIONS DATABASE

(Please see the attached)
11 CONFRONTATIONAL SITUATIONS DATABASE

The database is an informational database cataloging confrontational incidents involving TVA employees/contractors with property owners and residents regarding land rights issues where TVA has easements or right-of-way authority. This database provides safety related information allowing employees and contractors to be aware in advance of properties where a potential for harm may exist based on previous incidents, provides a level of risk associated with previous contacts and provides recommendations for handling future contacts. The input data comes from the form TVA 19040, called 'Threat Incident report'. The form and the database contain sensitive information. The forms are completed from various field offices and sent in to the central office for input. The program is based on the Oracle system.

DISPOSITION

A On-line reports
Delete when property changes ownership

B Database
Delete information when property changes ownership

- Threat Incident Report (Form TVA 19040) — GR520
- Destroy when property changes ownership — Item 2a.
