1/7/75 (Date) *Ronald E. Brewer* (Signature of Agency Representative) Assistant TVA Archivist (Title)

7. ITEM NO.	8. DESCRIPTION OF ITEM (With Inclusive Dates or Retention Periods)	9. SAMPLE OR JOB NO.	10. ACTION TAKEN
1.	<p align="center"><u>Division of Construction</u></p> <p>These computer printouts provide a record of material and equipment unit quantities, man-hours, and unit man-hour production rates required to construct a nuclear power plant. Unit production rates are utilized to forecast job trends, to prepare cost data, budgets, etc., and quantities reflected are used to schedule and plan the extent of effectiveness of subsequent nuclear plant design and construction efforts within TVA. At different points in time, different production rates will be experienced.</p> <p>Source program consists of a deck that is stored on one computer tape. Programs are run weekly; information can be retrieved from the computer tape for the two preceding weeks only. For this reason, retention of the printouts for a specific plant until the plant is completed is justified at this time.</p> <p>The original printouts are used at the nuclear plant site until it is completed. The duplicate copy is used in Knoxville by the Project Controls Staff, Cost Unit until the project is completed.</p> <p align="center"><i>destroy upon</i> Original - until completion of Project <i>destroy upon</i> Duplicate - until completion of Project</p> <p>These suggested retention periods will satisfy all TVA administrative needs.</p>
