7. ITEM NO.	8. DESCRIPTION OF ITEM (With Inclusive Dates or Retention Periods)	9. SAMPLE OR JOB NO	10. ACTION TAKEN
1.	<p align="center"><u>DIVISION OF POWER PRODUCTION</u></p> <p><u>Recording Instrument Charts - Hydro and Fossil Fuel Plants</u></p> <p>Because of new regulations we are revising this disposal request to reflect current administrative needs. The original SF 115 was approved 3/26/57. The paragraphs in this new SF 115 are not entirely different but should be reviewed as a new job and not as a revision to an old one.</p> <p>The FPC has revised its requirements for Recording Instrument Charts and Gage-Reading Reports because river-flow data collected in connection with hydro-operation s shall be retained for the life of the corporation (TVA). (See CFR, Title 18, Chapter I, Part 125.3, <del>section</del> <i>item</i> 22.1)</p> <p>Recording instrument charts are prepared automatically at generating plants. The data, once collected, is used to obtain information about the operating condition of the generating equipment and related auxiliary equipment.</p> <p>Since most of these records are prepared in continuous rolls, they would be meaningless without the whole roll. For this reason, samples are quite bulky and are not sent with this schedule. If necessary, in their appraisal the related samples can be shipped by parcel post later.</p> <p>Retention periods for these charts are listed on the attached sheet.</p>	II - NNA-2369 <i>item 4</i>
