8. DESCRIPTION OF ITEM

(With Inclusive Dates or Retention Periods)

1. Design records for Russian Power Plants which were prepared by TVA under contract with the U.S. Department of the Treasury as a part of the Lend Lease Program, 1942-1945.

Of the 40 cubic feet comprising this collection, 22 cubic feet were selected by the Regional Archivist (4NCN) for permanent retention, and were physically accessioned by 4NCN under auspices of Job Number NC3/142/77/1. Selection for permanent retention was based on the kilowattage of the projects and the control systems. All records in each series relating to the selected projects were screened.

The remaining 18 cubic feet of records, for which immediate destruction is herein requested, are (1) non-record copies of records selected for permanent retention, OR (2) records in such poor physical condition that permanent retention is not warranted, OR (3) records for projects NOT selected by the Regional Archivist for permanent retention. These records do not have sufficient evidential or informational value to warrant permanent retention. The series and locations of the disposable records are as follows:
