D. SIGNATURE OF AGENCY REPRESENTATIVE
Ronald E. Brewer

E. TITLE
TVA Assistant Archivist

Date
5/16/80

ITEM NO
1. Drawings and Sketches for Laboratory and Pilot Plant Apparatus and Equipment

These records are detailed drawings and sketches of laboratory and pilot plant apparatus and equipment used in carrying out TVA's chemical and fertilizer research and development program. Included are sketches of unique shop fabrications as well as manufacturer's drawings. They provide a comprehensive picture of items used for research and development and are continually referenced for fabrication, maintenance, alteration, repair, and duplication purposes.

As a part of OACD's cooperative research and development program, TVA processes for fertilizer production are made available to others including underdeveloped countries. When these processes are shared with others, it is imperative that they receive all related information including copies of these sketches and drawings. These records are filed by size, then number and are located by an index card system filed by subject. Accumulation is 11 cubic feet since 1934.

Disposition:

Duplicate Copies:

A. Original Pencil Sketch with

Matching Copy- Destroy 5 years after Chemical Fertilizer Research and Development Program is discontinued. Not authorized for transfer to FRC.

B. Destroy when no longer needed for administrative purposes. Not authorized for transfer to FRC.
