8. DESCRIPTION OF ITEM
(Employee Suggestion System Records)

The employee suggestion system program was established within the old Department of Property and Supply in 1945. This was the first such formal channel in TVA for the handling of employee suggestions. The suggestions relate to ways in which TVA employees can accomplish their work better, quicker, cheaper, or safer.

The Division of Property and Supply (formerly Department of Property and Supply) was merged with another TVA division into a new organization—Division of Property and Services in 1976. At that time the P&S Suggestion System Committee was terminated.

The official records which were maintained by the Secretary of the suggestion committee are used for administrative and reference purposes in the Division of Property and Service.
