   The purpose of the Personnel History Record is to provide information officially recognized and pertinent in recording and substantiating personnel actions. A major use of this file is in the personnel selection process, as a record basis for the comparative appraisal of candidates' qualifications. The file also is a principal source of official information about present and former TVA employees. Accumulation from 1933 to present is 1,215 cubic feet.

This will improve service to other offices who need to review these Personnel History Records, improve the security and integrity of the files, provide backup files for these vital records, and reduce manpower and related costs associated with the system.
