1	<p><u>Agricultural, Chemical, and Fertilizer Research and Development Technical Reports and Publications</u></p> <p>This records series pertains to a major program that has been ongoing in TVA since the agency was created by an act of Congress and the President in 1933. These reports document TVA's chemical, fertilizer, and agricultural research and development program.</p> <p>They contain information related to research and development of new and improved fertilizers and processes for their manufacture; testing and demonstrating methods of chemical and organic fertilizer use as an aid to soil and water conservation; preservation and enhancement of the Valley's agricultural resources; demonstration of new and improved agricultural methods; and for readjustment of agricultural areas affected by TVA operations. They also pertain to the operation and maintenance of facilities that serve as a national laboratory for research and development in chemistry and chemical engineering related to fertilizers and munitions essential to national defense.</p> <p>G Series, M Series, and periodic Activity and Progress Reports are inconclusive and not related to the public without clearance of issuing office.</p>
