7. ITEM NO.	8. DESCRIPTION OF ITEM (With Inclusive Dates or Retention Periods)	9. SAMPLE OR JOB NO.	10. ACTION TAKEN
	<p align="center"><u>Wilson Dam Construction Progress Negatives</u></p> <p>Wilson Dam was planned to supply the electrical needs of the Government's nitrate plants at Muscle Shoals during World War I. The war ended shortly after U.S. Army Corps of Engineers began construction of the dam in 1918. The dam was completed in 1925. Photographic negatives were made by the Corps of Engineers to document the various stages of the construction. The negatives were transferred to TVA when Wilson Dam was acquired in 1933.</p> <p>Due to their present condition, the original glass plate and nitrate negatives will be duplicated and one reference set retained by TVA.</p>
