<td>115-197</td>
<td>TVA's oral history program was started in 1976. Oral history interviews with former and current TVA employees and staff, and with Tennessee Valley residents, are recorded on magnetic audio tape. After an oral history interview is recorded, the tape is processed, producing documentation which supplements the tape and is a finding aid used by researchers who use the tape. This supporting documentation includes a copy of the oral history release agreement, abstract of the interview, biographical sketch of the interviewee, and either an index to material mentioned in the tape or a transcript of the tape. The original copy of the tape and the supporting documentation is maintained by the Records Administration Section. Additional copies of the tapes and the supporting documentation are available for research use at the TVA Knoxville Technical Library and the Records Administration Section office in Chattanooga.</td>
