7-11-85

C SIGNATURE OF AGENCY REPRESENTATIVE
Ronald E. Brewer

D TITLE
Assistant TVA Archivist

8 DESCRIPTION OF ITEM
(With Inclusive Dates or Retention Periods)

DOCUMENT CONTROL LOGS AND TVA ITEM IDENTIFICATION CODE LOGS:
The Document Control Log is used to record requests from TVA organizations for assignment of a TVA Item Identification Code (TIIC) number for a particular commodity.

The TVA Item Identification Code Log is used to list the TIIC number assigned to a commodity after a cataloger has researched the commodity for TVA and written a comprehensive description. The goal of Materials Management Services Staff is to have a TIIC number assigned to all commodities within TVA.

These logs are preprinted forms used by Materials Management employees to enter hand-written information. This information is used to provide audit traceability for incoming document requests and assigned TIIC’s, to know when a TIIC number was requested and when and what number was assigned.
These logs have significant value for administrative reference. Two copies of microfilm (one original and one duplicate of each log) will be produced. For security purposes the copy will be stored in a separate location in the Materials Management Services Staff. Filming will be done on an annual basis. Approximate accumulation is 5 cubic feet since 1979.

**DISPOSITION:**

- **Paper:** Destroy in Agency when acceptable microfilm is obtained.
- **Microfilm:** Destroy in Agency when superseded or when system is discontinued.
