

# INACTIVE - ALL ITEMS SUPERSEDED OR OBSOLETE

Schedule Number: NC2-163-79-01

This schedule provided disposal authority for records previously accessioned into the holdings of the National Archives.

Per NARA Directive 1540 – *Reappraisal and Deaccessioning of Archival Federal Records*:

An internal disposal is the permanent removal of a discrete set of an accessioned series of records from NARA's physical and legal custody, from any number of physical locations (up to and including all physical locations), because they have been reappraised as temporary, without affecting the existing disposition authority for any remaining records. This removal can result in the records being destroyed, permanently returned to an agency, or donated to another organization.

It is assumed that the schedule was implemented after the record scheduling process was completed (concurrence by the agency, notice to the public via the Federal Register, and approval by the Archivist of the United States).

Note: Dossiers documenting the internal disposal process, for internal disposals processed from 1935 to 1985, were accessioned (transferred) into the holdings of the National Archives.

Memo to the file:

This dossier is reconstructed from the files of RDE (Electronic Records Division). AC (Office of the Chief Records Officer) does not have a signed copy of the schedule or other dossier materials in their files. This schedule was noted as "Completed" in the CATS database on 3 March 1979. It is assumed that it was approved by the Archivist on that date.
