ITEM GENERAL INFORMATION		
Item Title	Legacy 3650 Licensees Files	
Item Description	<p>Filed information in order to establish legacy 3650-3700 MHz band licensees protection from the Citizens Broadband Radio Service (CBRS). Public Notice GN Docket No 12-354 required that licensees seeking legacy protection must include the following information: Identification of the relevant base stations registered in ULS as of April 17, 2015, that will be used to define the legacy Wireless Protection Zone; Certify that the stations were constructed, operational, and in compliance with the Commission’s Rules as of April 17, 2016; Identify whether unregistered and/or registered customer premise equipment (CPE) is being used with that base station; and If registered CPE equipment is being used – specify the distance to the furthest registered CPE. This information was collected from April 7, 2017 until August 7, 2017 and stored in a database. The database is used by Spectrum access system (SAS) administrators to establish these legacy Wireless Protection Zones around incumbent operations in the 3650 MHz service and protect them from new CBRS operations until the end of the CBRS transition October 17, 2020 for most licensees, but as late as January 8, 2023 for some licenses with later expiration dates. These files also contain an annual report which is provided to the SAS that identifies all protected licenses cancelled, expired, or otherwise removed for the database in the previous year.</p>	
Is this item media neutral?	Yes	
Is this item a Big Bucket?	No	
MANUAL CITATION		
Agency Code	47 U.S.C. §§ 151, 152, 154(i), 154(j), 155(c), 302(a), 303, 304, 307(e), and 316 of the Communications Act of 1934.
