UNIVERSAL LICENSING SYSTEM

This schedule covers paper and electronic records for the Universal Licensing System. Included under this schedule are various types of applications, licenses, correspondence, and case files associated with regulation of two-way radio communication (including Public Safety and Homeland Security), Antenna Structure Registration, Tower Construction Notification and Nationwide Programmatic Agreement systems. Please see attached for Input/Source Records, Master Files, Output Records and Systems Documentation. This request replaces Job No. N1-173-94-2 approved July 13, 1995, Job No. N1-173-98-6 approved June 2, 1999, NC1-173-84-4 Items 10A, B, C, D. Portions of Job No. N1-173-75-1, Job No. N1-173-75-1, N1-173-90-1 & Job No. N1-173-86-2

A. Universal Licensing System (ULS)- Application Records

1. FCC Form 601 – These are original applications for the Wireless Telecommunications Bureau (WTB) auctionable radio services and/or Public Safety and Homeland Security Bureau (PSHSB) submitted to operate radio stations, amend pending applications, modify existing licenses, and perform a variety of other miscellaneous transactions. Radio services include Public Mobile Services, Personal Communications Services, General Wireless Communications services, Private Land Mobile Radio Services, Broadcast Auxiliary Services, Broadband Radio Services, Educational Broadband Services Fixed Microwave Services, Maritime Services (excluding ships), and Aviation Services (excluding Aircraft). The application includes the FCC Form 601 and any attachments submitted with the form (i.e. letters, supplemental statements, other forms). Applications may be filed electronically or manually. Manually filed applications are entered into ULS and an electronic record is created. The electronic record includes the application as well as administrative information (e.g. comments) and historical information (e.g. application history). Licenses are renewable every ten (10) or fifteen (15) years.

This application replaces:

- Construction Permit Files (FCC Form 402) Job No. N1-173-75-1

~~Disposition: Temporary. Delete all active and archived electronic records when associated license call sign is deleted.~~

GRS 20, Item 2b

5b. Paper Record

~~Disposition: Temporary. Destroy when no longer needed.~~

GRS 20, Item 2a(4)

C. Spectrum Audit - Audit Records

1. When conducting a spectrum audit, ULS will generate letters to licensees in the Wireless or Public Safety Radio Services requesting information on the construction status of the license. License information that is used to generate the letters is stored in the spectrum audit module (copies of the actual letters are not retained). Licensees may use the module to provide the construction status information interactively or through a manual filing. If filed manually, the information is entered into spectrum audit module. An electronic record of the response is created for both electronic and manual filings.

1a. Electronic Record

~~Disposition: Temporary. Delete twelve (12) years after the audit is completed.~~

GRS 20, Item 2b

1b. Paper Record

~~Disposition: Temporary.
Transfer to Federal Records Center after 1 year.
Destroy paper when twelve (12) years old.~~

GRS 20, Item 2a(4)

D. Antenna Registration System (ASR) - Application Records

1. FCC Form 854 – These are original applications required to register structures used for wire and radio communication service in any area where radio services are regulated by the Commission; to make changes to existing registered structures or pending applications; or to notify the Commission of the completion of construction or dismantlement of structures, as required by Title 47 of the Code of Federal Regulations, Chapter 1, Part 17. The application includes the FCC Form 854 and any attachments submitted with the form (i.e. letters, structure drawings). Applications may be filed electronically or manually. Manually filed applications are entered into ULS and an electronic record is created. The electronic record includes the application as well as administrative information (e.g. comments, status).

This application replaces:

- FCC Form 854 Job No. N1-173-98-6 – Antenna Structure Registration Files

1a. Electronic Record

~~Disposition: Temporary. If associated with a granted registration, delete application record when the registration is deleted from the system. If not associated with a granted registration, delete twelve (12) years after final action on the application.~~ **GRS 20, Item 2b**

1b. Paper Record

~~Disposition: Temporary.
Transfer to Federal Records Center after 1 year.
Destroy paper when twelve (12) years old.~~ **Previously scheduled**

2. Letters - These are system generated outputs that provide information on the status of an application and/or action that needs to be taken on the application. The notice created from organized collection, processing, transmission, and dissemination of information in accordance with defined procedures. Electronic information is transmitted from the internal to the external unit of the computer to produce a hard copy which is sent to the applicant. An electronic record of the letter is associated with the application record.

Application Letters include:

- FCC 675 – ASR ACKNOWLEDGEMENT OF RECEIPT
- FCC 688 – NOTICE OF RETURN
- FCC 689 – NOTICE OF DISMISSAL

~~Disposition: Temporary. Delete when the associated application is deleted.~~

GRS 20, Item 5

E. Antenna Registration System (ASR) - Registration Records

1. FCC 854-R (Master File) – ANTENNA STRUCTURE REGISTRATION – Issued document and associated registration information for a granted Antenna Structure Registration. Registration records are stored electronically and contain technical information, administrative information (e.g. comments), and historical information (e.g. related applications). Electronic information is used to produce a hard copy which is sent to the licensee. Registrations do not expire, but can be cancelled, terminated or dismantled. Records include granted, archived, cancelled and dismantled registrations.

Disposition: Temporary. Delete electronic record twelve (12) years after registration is no longer valid (canceled, terminated or dismantled).

2. Letters - These are system generated outputs that provide information on the status of a granted registration and/or action that needs to be taken on the granted registration. The notice created from organized collection, processing, transmission, and dissemination of information in accordance with defined procedures. Electronic information is transmitted from the internal to the external unit of the computer to produce a hard copy which is sent to the applicant. An electronic record of the letter is associated with the registration record.

Registration Letters include:

- FCC 676A – FRN ASSOCIATED FOR ASR
- FCC 676D – FRN REMOVED FOR ASR
- FCC 676R – FRN REPLACED FOR ASR
- FCC 684 – NOTICE OF ANTENNA STRUCTURE REGISTRATION CHANGE OF OWNERSHIP
- FCC 685 – ANTENNA STRUCTURE REGISTRATION CONSTRUCTION REMINDER
- FCC 686 – NOTICE OF ANTENNA STRUCTURE REGISTRATION CANCELLATION
- FCC 687 – NOTICE OF ANTENNA STRUCTURE REGISTRATION TERMINATION

Disposition: Temporary. Delete when the associated registration record is deleted. **GRS 20/5**

F. Tower Construction Notification

1. Tower Construction Notification System (TCNS) - System to assist in notification of proposed constructions of communications facilities to federally-recognized Indian Tribes and Native Hawaiian Organizations (NHOs) in the context of review required by Section 106 of the National Historic Preservation Act (NHPA). Companies may use these systems to voluntarily submit notifications to the FCC which are subsequently provided to Tribes and NHOs. It provides Tribes/NHOs with early notification of proposed towers in order to facilitate compliance with the Commission's rules, and streamline the review process for construction of towers and other Commission undertakings. The electronic record includes tower information submitted by the filer, automated letters sent to the Tribes/NHOs and filers, tribal responses, and uploaded documentation related to the review process.

Automated Letters Include:

- FCC 680 – NOTICE OF ORGANIZATION(S) WHICH WERE SENT PROPOSED TOWER CONSTRUCTION NOTIFICATION INFORMATION
- FCC 681 – WEEKLY NOTICE OF TOWER CONSTRUCTION NOTIFICATION SYSTEM FILINGS
- FCC 810 - PROPOSED CONSTRUCTION OF COMMUNICATIONS FACILITIES NOTIFICATION OF FINAL CONTACTS
- FCC 924 - PROPOSED CONSTRUCTION OF COMMUNICATIONS FACILITIES FINAL REQUEST FOR INDICATION OF INTEREST

Withdrawn Description does not reflect that federally-recognized Indian Tribes and Native Hawaiian Organizations E-106 forms are forwarded to item 2 below.

Disposition: Temporary. Delete electronic record twelve (12) years after the notification is abandoned or constructed.

2. Electronic Section 106 System (E-106) - System to assist in notification of proposed constructions of communications facilities to State Historic Preservation Officers (SHPOs) in the context of review required by Section 106 of the National Historic Preservation Act (NHPA). Companies may use these systems to voluntarily submit notifications to the FCC which are subsequently provided to SHPOs. It provides SHPOs with early notification of proposed towers in order to facilitate compliance with the Commission's rules, and streamline the review process for construction of towers and other Commission undertakings. The electronic record includes tower information submitted on electronically filed Forms 620 and 621 applications, automated FCC 813 letters (Weekly Notice of NEPA/Section 106 System Filings), Memorandum of Agreement, and uploaded documentation related to the review process.

Withdrawn Description does not reflect that federally-recognized Indian Tribes and Native Hawaiian Organizations E-106 forms are included as part of the description of this item.

Disposition: Permanent
