Children's Television Programming Report, FCC Form 398 (or equivalent)

Pursuant to the Children's Television Act and 47 C F R Section 73 671(a), each television broadcast station licensee has an obligation to serve, over the term of its license, the educational and informational needs of children through both the licensee's overall programming and programming specifically designed to serve such needs. Licensees are required to publicize the availability of their programming specifically designed to educate and inform children in accord with 47 C F R Sections 73 671(c)(5), 73 671(c)(7), and 73 673 and to report on these programs and related matters in accord with 47 C F R Section 73 3526(e)(11)(iii)

Pursuant to 47 C F R Section 73 3526(e)(11)(iii), each commercial television broadcast licensee must prepare a Children's Television Programming Report, on FCC Form 398, for each calendar quarter, as well as efforts planned for the next quarter, to serve the educational and informational needs of children. If the program was preempted during the quarter, the station should complete a Preemption Report included in FCC Form 398 for each preempted core program. FCC Form 398 facilitates efforts by the public and the FCC to monitor compliance with the Children's Television Act.

1 Master Data File

Information maintained in the system for the Children's Television Programming Reports includes the licensee's name, current call sign, channel number and community of license, the average number of hours per week of core programming broadcast by the station, and information on core programs such as title of the program, days and times the station regularly schedules the program, and the program length.

Information maintained in the system regarding the preemption report, if applicable, includes the title of the program, the total number of times the program was aired during the quarter (including the number of times the program aired at its regularly scheduled date and time and the number of times any rescheduled programs aired), the number of preemptions during the quarter, and the number of preemptions rescheduled during the quarter. The preemption report also indicates, for each preempted episode of the core program, the date the episode was preempted and, if the program was rescheduled, the date and time the episode was rescheduled, whether promotional efforts were made to notify the public of the rescheduled date and time, and whether the rescheduled date is the program's second home. The reports should also indicate for each preempted episode the reason for the preemption.

Disposition Temporary. Cut off files at the end of the calendar year. Destroy/ delete 25 years after cut off or when no longer needed, whichever is later.
