	<p align="center">RECORDS CONTROL SCHEDULE FOR SAFETY AND SPECIAL RADIO SERVICES BUREAU</p> <p>0.131 FUNCTIONS OF THE BUREAU. The Safety and Special Radio Services Bureau develops, recommends, and administers policies and programs for the development and regulation of the Safety and Special Radio Services. These services include nationwide and international uses of radio by persons, businesses, state and local governments, and other organizations licensed to operate their own communication systems for their own use as an adjunct of their primary business or other activity. This program includes, among others, (1) the compulsory use of radio for safety at sea purposes, and (2) the regulation, jointly with the Common Carrier Bureau, of certain classes of radio stations which render communication service for hire. The Bureau performs the following functions:</p> <p>(a) Advises and makes recommendations to the Commission and acts for the Commission in matters pertaining to the regulation and development of the Safety and Special Radio Services. These matters include: Rule making, waivers of rules, action on applications for authorizations, adjudicative hearings, enforcement activities, legislation, and defense matters.</p> <p>(b) Participates in treaty activities and all phases of international conferences concerning the Safety and Special Radio Services.</p> <p>(c) Conducts studies of frequency requirements in the Safety and Special Radio Services; recommends allocations of frequencies and drafts frequency assignment plans for these services.</p>
