## Records Schedule Items

1	Associated Indices to the Central Files of the Chairman and Commissioners
1.1	Index to the Central Files of Chairman and Commissioners
	Disposition Authority Number      DAA-0180-2012-0004-0001
	<p>This system is the index to the Central Files. This system records the subject file codes and corresponding file titles that are used to index the Central Files and to approximately locate documents in the files by subject. The subject file codes were originally derived from the Master Subject Outline, which was a classification scheme promulgated in the CFTC Records and Disposition Manual around 1980. Over 4,700 file codes and corresponding file titles have been used to date and continue to grow. The Office of the Secretariat adapted the Master Subject Outline to its own filing needs, resulting in a similar classification scheme, known as BIGBOY (and which is the basic table in the Central Files Index. The BIGBOY file code corresponding to the best fitting file title is written on the front page of each document filed in the Central Files. The document is filed for its life in the fiscal year folder for that subject category. This system also records deliberate changes to the BIGBOY table, which occur occasionally to correct errors discovered during research. A secondary purpose of the system is to convert subject file codes to a unique alphanumeric value for use in sorting and linking (the Master Subject Outline, on which the system is based, introduced punctuation unsuitable to reference data, such as the forward slash and the dash). The system also records standardized abbreviations of file types and titles that are included in microfiche headers.</p>

## Secretariat Correspondence Locator System

This system supports the Central Files of the Chairman and Commissioners. The primary purpose of this system is to synopsise each document that passes through the Office of the Secretariat either to or from the Commission, track incoming documents assigned for response to other Divisions/Offices, and record responses and actions taken by or on behalf of the Commission. The system locates each document in the Central Files by the subject file codes applied to the document. Each record in the database corresponds to a document filed in the Central Files. The database has been used since about 1989, however, it is accurate from about 1990 to the present.

1.2.1

## Database.

Disposition Authority Number      DAA-0180-2012-0004-0002

Database tracks and indexes documents received by the Commission and referred to other Divisions/Offices for action.

## Seriatim Log

The primary purpose of this system is to synopsise, identify, and track each seriatim or "sign-off" decision of the Commission. The system tracks the seriatim documents through the Commissioners' offices and into the Central Files. The seriatim documents are document packages recording the votes of the Commissioners, the underlying staff recommendations, any concurrences or dissents of the Commissioners, background documentation, and revisions or edits of orders and other Commission issuances that occur at the Commission level. The system locates each seriatim package in the Central Files by the subject file codes applied to the document.

1.3.1
