7 ITEM NO	8 DESCRIPTION OF ITEM <i>(With Inclusive Dates or Retention Periods)</i>	9 GRS OR SUPERSEDED JOB CITATION	10 ACTION TAKEN <i>(NARS USE ONLY)</i>
	<p align="center"><u>DEFENSE PLANT CORPORATION</u></p> <p>The Defense Plant Corporation (DPC) was organized August 23, 1940, under the authority of Section 5D of the Reconstruction Finance Act as a subsidiary corporation of the Reconstruction Finance Corporation (RFC). Its functions were to finance and supervise the construction and equipping of industrial facilities under the national defense program.</p> <p>During its existence, the DPC disbursed \$7.3 billion on over 230 projects. Over 50% of this money went directly or indirectly into aviation. The DPC directly invested \$2.6 billion in land, buildings, machinery, and other equipment in several hundred new plants for the construction of aircraft, engines and parts. It provided \$4 billion indirectly for the construction of plants for the production of high octane AVGAS, aluminum, tin, and magnesium. The DPC played a major role in the expansion of existing facilities engaged in the production or fabrication of ships, tanks, heavy guns, steel, and machine tools. The construction of the strategic pipelines needed to transport fuel for the war effort was also accomplished by the DPC.</p> <p>As a part of its overall function, the DPC supervised loans known as "Plancors" and "Rentras." The Plancors covered defense construction projects, and the Rentras covered projects for the procurement and leasing of equipment for</p>		

defense purposes. The DPC also made and administered loans known as "Swapcos" for the Smaller War Plants Corporation established in 1942. The DPC was dissolved July 1, 1945 and its functions, assets, and liabilities were transferred to the RFC under an act of June 30, 1945. The Office of Defense Plants within the RFC was responsible for administering and overseeing the liquidation of the assets of DPC, which was completed in 1956.

1) Real Property Acquisition and Disposal Case Files, 1942-56.

These files contain title papers and related purchase and sale documents including appraisal reports, condemnation proceedings, easement records, and quitclaim deeds. In addition, there are copies of DPC resolutions with amendments, lease agreements and guarantees, tax assessment records, surplus property declarations, exhibits, and related correspondence and memoranda. Since the land acquired for most of these project was closely related to national defense, most of the contract include recapture clauses or other reservations not limited in time. Arranged alphabetically by name of company and thereunder by Plancor, Rentra, or Swapco (project) number.

Disposition: TEMPORARY. Destroy when ABS freeze is lifted.

5) Subsidy Payment Case Files - Atlanta Loan Agency, 1942-50.

This series consists of routine correspondence between the Atlanta Loan Agency and various warehouse owners in the Southeast regarding storage of strategic raw materials. Included are bills for storage; correspondence on disputed bills and charges; and correspondence regarding the availability of storage space and the release of no longer needed leased storage facilities by RFC's Office of Defense Supplies. There is also a set of Defense Supplies Corporation (DSC) Bulletins, numbered 1-274 dating between January 11, 1941 through September 9, 1948. These bulletins detail the procedures set up by RFC in the operation of the DSC over its lifetime.

6) Patent License Files and Related correspondence- - RFC Patent Office, 1932-54.

These files relate to the acquisition of patents or the use by DPC and other RFC subsidiaries and contractors of existing patents on devices or processes needed in the construction and operations of various RFC facilities. These files consist of patent correspondence, index cards on patents, patent applications, patent lists, and patent reports. Also included are royalty agreements and related correspondence concerning royalties chargeable to the U. S. Government and transmittal letters on licensing agreements. Arranged alphabetically by name of product, process, device, or company.
