

REQUEST FOR RECORDS DISPOSITION AUTHORITY
(See Instructions on reverse)

TO: NATIONAL ARCHIVES and RECORDS ADMINISTRATION (NIR)
WASHINGTON, DC 20408

1. FROM (Agency or establishment)
National Aeronautics and Space Administration (NASA)

2. MAJOR SUBDIVISION
NASA Headquarters

3. MINOR SUBDIVISION

4. NAME OF PERSON WITH WHOM TO CONFER
Patti F. Stockman, NASA Records Officer

5. TELEPHONE
(202) 358-4787

LEAVE BLANK (NARA use only)

JOB NUMBER
71-255-04-3

DATE RECEIVED
7-13-2004

NOTIFICATION TO AGENCY

In accordance with the provisions of 44 U.S.C. 3303a the disposition request, including amendments, is approved except for items that may be marked "disposition not approved" or "withdrawn" in column 10.

DATE *2 August 2005* ARCHIVIST OF THE UNITED STATES
Luis Bellosillo

6. AGENCY CERTIFICATION

I hereby certify that I am authorized to act for this agency in matters pertaining to the disposition of its records and that the records proposed for disposal on the attached 7 page(s) are not now needed for the business of this agency or will not be needed after the retention periods specified; and that written concurrence from the General Accounting Office, under the provisions of Title 8 of the GAO Manual for Guidance of Federal Agencies, is not required; is attached; or has been requested.

DATE Fri, Jul 9, 2004	SIGNATURE OF AGENCY REPRESENTATIVE <i>Patti F. Stockman</i>	TITLE NASA Records Officer, NASA Headquarters, Code VE
--------------------------	--	---

7. ITEM NO.	8. DESCRIPTION OF ITEM AND PROPOSED DISPOSITION	9. GRS OR SUPERSEDED JOB CITATION	10. ACTION TAKEN (NARA USE ONLY)
	<p>PROGRAM AND PROJECT RECORDS (See attached for proposed schedule.)</p> <p>Features of the new schedule:</p> <ul style="list-style-type: none"> - 13 new schedule items replace 185 items in existing NASA Records Retention Schedules (NRRS) 7 & 8. [Crosswalk will follow under separate cover.] - Media-neutral, covering any and all media & formats, produced using any tool. - Aggregates records by historical value or operational value to program/project - Provides 3 retention values: permanent, long-term temporary (5-30 years), short-term temporary (2-15 years). - For Project flexibility, utilizes year "bands" within which temporary records may be destroyed by projects, depending on operational value of each type record to individual Projects. - Aggregates records with like retention value versus individual items for each piece of the Project record puzzle. - "Notes" at the end of the new schedule provide non-exhaustive lists of record examples for each retention value. <p>NOTE: The new schedule will be incorporated into NRRS 8 as items 101-113. Crosswalk of affected current NRRS items to proposed new items included as an attachment to this proposed schedule.</p>		

PROGRAM AND PROJECT RECORDS

What this schedule covers. This schedule designates appropriate retention of NASA program and project records produced through compliance with NPR 7120.5 or other authorized project management practices. It provides for permanent retention of substantive and historically significant records, and temporary retention of other records until the Agency no longer needs them. The terms "program" and "project" are defined in the current versions of NPD 7120.4 and NPR 7120.5. This schedule applies to all activities performed as part of programs/projects whether designated "tasks," "work packages," or other terminology.

What this schedule does not cover. Records generated by some supporting activities such as procurement, financial management, property and supplies, personnel administration, and legal and patent issues are covered by other NASA records schedules. Questions about which schedules apply to specific records should be addressed to the Center Records Manager.

Office(s) of Record. As used in this schedule, Office of Record refers to that office holding the official record copy of a specific record when multiple copies are used across offices, projects and centers. Most typically this is the office that creates and maintains the record, although specific offices may be designated, when appropriate, to hold official records generated across the program or project. In some cases there may be more than one official copy of a record when it has separate independent functions in different organizations.

Media. This schedule covers records in any and all media, in any and all formats, and produced using any and all tools. Records may include, but are not limited to, word processing documents, presentation materials, statistical data, test data, spreadsheets, databases, e-mail, e-messages, photographic materials, audio materials, film and video materials, drawings, and artwork.

How to use the Notes. Notes 1, 2, and 3 list documents perceived to have permanent, long-term temporary, or short-term temporary value, respectively. These lists are intended to be inclusive rather than exclusive. They are to assist in selection, not to preempt selection. Program/project staff must exercise case-by-case judgment to ensure that permanent records are identified and retained while other records are destroyed appropriately. In cases of doubt about what item to apply, users of this schedule should contact their center records manager.

Item	If the records pertain to	and consist of	which are	then the records are
1	programs/projects relating to both manned and unmanned space flight, aerospace technology research, and basic or applied scientific research AND meeting one or more of the following criteria: are "first of a kind," establish precedents, produce major contributions to scientific or engineering knowledge, integrate proven technology into new products, or are/have been subject of widespread media attention or Congressional scrutiny.	records essential for understanding the history of a program/project from inception to completion defined by the stages in program/project's life. Note 1 contains a list of eight stages and potential records that might be created in each.	held at office of record	permanent. Cut off records at close of program/project or in 3-year blocks for long term programs/projects. Transfer to records center storage. Transfer to National Archives 7 years after cutoff. Special media records will be transferred in accordance with 36 CFR § 1228.270 (electronic records), 36 CFR § 1228.266 (audiovisual records), 36 CFR § 1228.268 (cartographic and architectural records), and/or current transfer instructions specific to individual formats.
2			all other copies	temporary. Destroy/delete when no longer needed.

Item	If the records pertain to	and consist of	which are	then the records are	
3		records not required for documenting the history of the program/project as described in item 1, but which have operational value to the Agency throughout the life of the program/project. Note 2 contains examples that might be created in each program/project stage.	held at office of record	temporary. Destroy/delete between 5 and 30 years after program/project termination. See Note 4.	
4			all other copies	temporary. Destroy/delete when no longer needed.	
5		all other routine records that are not considered to be essential for on-going operations of the program/project. Note 3 contains a list of records that may be included.	held at office of record	temporary. Destroy/delete when between 2 and 15 years old. Do not retain longer than life of program/project plus 5 years. See Note 4.	
6			all other copies	temporary. Destroy/delete when no longer needed.	
7		programs/projects that do not meet the criteria stated in Item 1.	records of programs/projects that have operational value to the Agency throughout the life of the program/project. Notes 1 and 2 contain listings of records that may be included.	held at office of record	temporary. Destroy/delete between 5 and 30 years after program/project termination. See Note 4.
8				all other copies	temporary. Destroy/delete when no longer needed.
9		all other routine records that are not considered to be essential for on-going operations of the program/project. Note 3 contains a list of records that may be included.	held at office of record	temporary. Destroy/delete when between 2 and 15 years old. Do not retain longer than life of program/project plus 5 years. See Note 4.	
10			all other copies	temporary. Destroy/delete when no longer needed.	
11	hard copy originals used to create imaged record copy on microfilm or electronic media	by definition duplicate materials because record copy is retained in another medium	held anywhere	temporary. Destroy/delete after (1) verification of microfilm or electronic record copy and (2) if record copy is electronic, verification that plans and procedures are in place to migrate records to accessible hardware and software as necessary throughout their retention period.	

Item	If the records pertain to	and consist of	which are	then the records are
		<ul style="list-style-type: none"> * Concept definition documents * Estimates of budget and schedule options * Infrastructure and program/project needs assessment * Mission needs statement, and other mission needs documents * Preliminary configuration layouts * Preliminary operations plans * Procurement/acquisition plan * Program/project formulation authorizations * Requests for proposals * Statements about analysis of program/project value * Studies of available technology, conceptual options, feasibility trades, and sensitivity * Technology availability/readiness assessments 		
		<p>Approval. Records documenting program/project as initially approved, and subsequent changes resulting from iterative process of defining concepts and requirements, including:</p> <ul style="list-style-type: none"> * Approval status tracking and control files * Authorization/approval documents * Commitment agreements * Evaluation reviews * Intra-NASA center and external memoranda of understanding or agreement 		
		<p>Design development. Records containing comprehensive information about design and development process, requirements, products, performance, and review, including:</p> <ul style="list-style-type: none"> * Design and development plan * Design concept verification studies and reports * Operating plan * Verification of design concept studies and reports 		
		<p>Manufacture, fabrication and assembly. Records that provide significant documentation of the construction, final assembly, and acceptance of as-flown hardware or as-operated ground-based experiments and any major changes to the original approved design, including:</p> <ul style="list-style-type: none"> * Acceptance and end item review materials / packages for hardware eligible for museum display * Configuration inspection reviews * Manufacturing plans 		
		<p>Pre-launch system integration and verification. Records that provide significant documentation of the process used to verify that a spacecraft is ready for launch, or a ground-based experiment is ready for operation, including:</p> <ul style="list-style-type: none"> * Certification reports * Flight readiness review materials * Operations plans for testing, integration, calibration, interface, and reliability * Requirements documents for testing and verification * Test and operations plans: verification, integration, handling, transportation, storage, support systems, facilities, logistics, qualification, and quality/reliability * Test readiness review materials * Verification plans 		
		<p>Implementation and operations. Records that provide significant documentation about how a mission/experiment was conducted, including:</p> <ul style="list-style-type: none"> * Anomaly reports * Engineering and operations manuals * Engineering data necessary to establish operation of technical sub-systems 		

Item	If the records pertain to	and consist of	which are	then the records are
12	electronic copies of records created using electronic mail, messaging systems, paging systems and word processing applications and used solely to generate a recordkeeping copy of the records covered by the other items in this schedule. Also includes electronic records created and maintained for the purpose of updating, revising, or disseminating.	copies that have no further administrative value after recordkeeping copy is created for retention under items 1, 3, 5, or 7. Includes copies maintained by individuals in personal files, personal electronic mail directories, or other personal directories including those on hard disk, network drives, shared drives, and all other electronic applications that are used only to produce the recordkeeping copy.	held anywhere	temporary. Destroy/delete within 180 days after the recordkeeping copy has been produced.
13		copies used for dissemination, revision, or updating that are maintained in addition to the recordkeeping copy.	held anywhere	temporary. Destroy/delete when dissemination, revision, or updating is completed.

Note 1. Records covered by Items 1, 2, 7 and 8 potentially created in the stages of a project/program's life are those essential for future studies of a program or project. This list is neither all-inclusive nor all-exclusive; it must be applied based on value judgements by those familiar with a program/project's development and accomplishments. Included are:

Records created at multiple stages.

- * Agendas, minutes and briefing materials of substantive meetings
- * Budget and actual cost data (final figures)
- * Directives
- * Hazard, risk and safety analyses/assessments
- * Independent and non-advocate reviews and assessments
- * Material from major milestone and peer reviews including, but not limited to: concept, preliminary design, critical design, design certification, mission readiness, configuration, program/project requirements, and system requirements.
- * Mission success criteria
- * Newsletters and bulletins
- * Partnering agreements
- * Press releases
- * Products of collaborative tools used to track or facilitate progress
- * Program/project plans, including annual Program Operating Plans
- * Public relations materials
- * Requirements documents including: baseline system, data, software, interface, integration, testing, design, operations, performance, science and acceptance
- * Testing and Operations Plans (*i.e.* : verification, integration, handling, transportation, storage, support systems, facilities, logistics, qualification, quality, reliability, acceptance, and science)
- * Specifications, drawings and associated lists used for hardware manufacture/fabrication, and related finding aids
- * Substantive correspondence, memos, e-mails, photographs, and presentation materials.

Formulation. Records defining scope, objectives, technical performance requirements, cost, and schedules of program/project prior to initial formal approval, including:

- * Announcements of opportunity (including research opportunity)
- * Art work and drawings produced to illustrate concepts or designs
- * Concept/configuration options and decision packages

Item	If the records pertain to	and consist of	which are	then the records are
		<ul style="list-style-type: none"> * Final versions of specifications, drawings, associated lists and related finding aids used for * Flight crew and mission controller reports or notes, audio tapes and imagery * Flight data files and timelines * Flight procedures manuals * Imagery in any format of mission operations * In-flight or on-orbit anomaly investigation reports and flight notes * Standards 		
		<p>Observational data. Records containing physical sciences observational data created by both space- and earth-based platforms that are unique and cannot be extrapolated from other data sets or observations at a reasonable cost, including:</p> <ul style="list-style-type: none"> * Copies of definitive data sets * Instrument operations * Copies of processed data and metadata, its analysis, and proposals for analysis, and related finding aids * Laboratory notebooks and logbooks * Proceedings * Studies and reports 		
		<p>Evaluation and termination. Records documenting results of program/project, specific manned or unmanned flight or experiment upon completion, including:</p> <ul style="list-style-type: none"> * Analyses of mission results * Final mission or experiment reports * Lessons learned studies * Mission/experiment reports (preliminary and final) * Mission failure or accident investigation records * Publications and conference proceedings * Restart notes * Substantive notes of scientists and other personnel not incorporated in other records * Summaries of accomplishments and problems * Termination notifications and related justifications 		
		<p>Note 2. Records covered by Items 3, 4, 7 and 8 potentially created in the stages of a project/program's life are those essential for continuing operations and technology transfer. This list is neither all-inclusive nor all-exclusive; it must be applied based on value judgements by those familiar with a program/project's development and accomplishments. Included are:</p>		
		<p>Records created at multiple stages.</p> <ul style="list-style-type: none"> * Configuration management control documentation including change requests and dispositions * Correspondence, memos, and e-mails related to any records described in Note 2 * Interface control documents * Minutes of all Program Control Boards * Open action tracking files not included in major milestone review documentation * Periodic reports, status reviews and presentations whose substance is captured in major milestone reviews (see Note 1, Records created at multiple stages) * Problem reporting and corrective action reports * Quality assurance audit reports * Specifications and drawings of superseded systems with no historic interest, and related finding aids * Waivers * Work instructions and work authorization documents 		
		<p>Formulation, including:</p>		

Item	If the records pertain to	and consist of	which are	then the records are
	<ul style="list-style-type: none"> * Audits * Concept verification testing data * Environmental impact studies * Technical evaluations of proposals * Technology readiness demonstration results 			
	<p>Approval, including:</p> <ul style="list-style-type: none"> * Configuration audits * Failure modes analyses * Preliminary budget and cost estimates and studies * Preliminary design documents * Safety analysis reports * Work breakdown documents 			
	<p>Design development, including:</p> <ul style="list-style-type: none"> * Contract End Item (CEI) specifications redundant to the specifications in Note 1, Design development * Design performance analyses * Design reviews whose substance is captured in major milestone reviews (Note 1, records created at various * Design verification testing data * Test data developed for verification studies 			
	<p>Manufacture, fabrication and assembly. Records not included in Note 1 that are useful for identification, correction, and/or investigation of performance problems or mishaps, but not needed after hardware is no longer in NASA inventory, including:</p> <ul style="list-style-type: none"> * Acceptance data packages including test procedures and results for hardware not suitable for museum display * Audits * Engineering test and evaluation data * Final contract deliverable technical data requirements (complete set) * Hardware vendor lists * Material and parts lists * Qualification of flight hardware, test plans, and results * Quality and reliability test plans and results * System acceptance review documents 			
	<p>Pre-launch system integration and verification. Records not included in Note 1 that are useful for identification, correction, and/or investigation of performance problems or mishaps, but not needed after hardware is no longer in NASA inventory, including processing documents for spacecraft, payloads, or experiments such as:</p> <ul style="list-style-type: none"> * Discrepancy reports * Engineering support requests * Field engineering changes * Flight certifications * Modification instruction packages * Operations readiness review materials * Payload processing and integration * Pre-flight or pre-experiment test and verification data * Pre-ship review materials * Safety and mission assurance documents * Safety reviews * Test and assembly procedures * Test preparation sheets 			

Item	If the records pertain to	and consist of	which are	then the records are
<p>* Verification/validation of flight/test software</p> <p>Implementation and operations. Records not included in Note 1 that are useful for identification, correction, and/or investigation of performance problems or mishaps, but not needed after hardware is no longer in NASA inventory, including:</p> <ul style="list-style-type: none"> * Commands * Launch operations data * Principal investigators' user guides 				
<p>Observational data. Records that do not meet the criteria for observational data described in Note 1, in particular data generated by engineering tests to verify theories, design concepts, etc., including:</p> <p>(Exception: data determined by NASA management to have continuing value may be retained beyond 30 years until reference use ceases.)</p> <ul style="list-style-type: none"> * Derived data sets * Engineering data necessary to establish operation of instruments * Raw experimental, observational, or engineering data (Exception: raw data determined by NASA management to have continuing value may be retained beyond 30 years until reference use ceases.) 				
<p>Note 3. Records covered by Items 5, 6, 9 and 10 potentially created in the stages of a project/program's life have only limited short-term value. They include but are not limited to:</p> <ul style="list-style-type: none"> * Budget and actual cost data (working files; for final figures see Note 1) * Action items from technical interchange meetings or management reviews not considered major milestones * Copies of presentation material maintained for personal reference containing no substantive notes * Internal center memoranda of understanding or agreement * Products of collaborative tools relating to administrative matters * Routine correspondence, e-mails, agendas, minutes * Small purchase justifications and related documents not maintained in official procurement files * Trip reports 				
<p>Note 4. Retention period for records relating to environmental protection, OSHA or other regulatory requirements should be lengthened as required by applicable state legislation.</p>				

Crosswalk of NRRS 7 and 8 to New Program/Project Schedule Items
July 9, 2004

<u>Old Schedule Location #</u>	<u>Type (Schedule 7)</u>	<u>New Schedule Location</u>
7/1	R& D correspondence	3 or 7
7/2A	R&D project control files Director's office and/or Headquarters program office	3 or 7
7/2B	Lab chiefs and supervising directors	3 or 7
7/2C	Other copies	4 or 8
7/3	R&D source data files	3 or 7
7/4A	R&D long range planning files Headquarters and responsible office	1 or 7
7/4B	Contributing offices (Hqs and Centers)	3 or 7
7/4C	Other offices/copies	4 or 8
7/5A1(a)	R&D project files – planning and approval Published reports, OPR	1 or 7
7/5A1(b)	Working papers	5 or 9
7/5A2	Unpublished reports	3 or 7
7/5A3(a)	Program/Project documentation Decisions and rationale	1 or 7
