1	<p><u>COMBINED RELEASE AND RADIATION EFFECTS SATELLITE (CRRES)</u></p> <p>Records contained within this series consist of data from the Project Manager's office, project control (cost), Chief Engineer's office, Mission Integration and Operations, and Flight Systems office. Records do not include procurement files. These are the total project case files for CRRES which is a joint effort between DoD and NASA. The CRRES spacecraft was launched in July 1990 and the last release for scientific data obtained by this satellite is September 1991. Currently on-hand there is 3 cubic feet of active files being used by researchers and scientists responsible for CRRES activity and 37 cubic feet of records to be retired. It is expected that annual accumulations for CRRES will be approx. 1½ cubic ft/year. The CRRES Project Office no longer exists and these records are the office files.</p> <p>DISPOSITION: PERMANENT. Retire records to FRC within 2 years after completion, cancellation, or termination of project. Transfer to NARA 15 years after designated event, or when 25 years old whichever is sooner. Records determined to be duplicates, reference copies, or otherwise maintained in another NASA series may be disposed of during the archival processing. <i>by NARA to have insufficient archival value, may be disposed of during archival processing.</i></p> <p>Other Copies: Destroy when no longer needed or when 15 years old, whichever is sooner.</p> <p>**Authority for all disposition actions related to the above item CRRES will be the NARA Job Number cited at the top of this SF 115.</p>		<i>CAF 11/12/91</i>
