---------------------------	---	--

7. ITEM NO	8. DESCRIPTION OF ITEM (With Inclusive Dates or Retention Periods)	9. SAMPLE OR JOB NO.	10. ACTION TAKEN
1	<p>Approximately, 2,000 cans (153 cubic feet) of 70mm, 35mm, and 16mm, color and black and white, motion picture film covering sounding rocket launches from Wallops Island during the period 1957(?) to 1970. The films are recommended for disposal because they are redundant in coverage of film that is to be retained (innumerable launches of the same types of rockets); and because of poor photographic quality.</p> <p>*Disposal approval confirmed by Maureen Witt, Mr. Busse's secretary in telephone conversation 10-3-77.</p> <p>**Disposal approved with the understanding from Leon Williams, Chief, Stock Film Library, Audiovisual Services Division, NARS/GSA, that disposal does not necessarily mean immediate destruction. The film should be released to Byron Morgan, Audio Visual Services Division, NASA Headquarters (755-3500). He and Joyce Millner of the Public Affairs Office for the NASA/Wallops Flight Center in Virginia will review the film for potential use in a Visitor's Center. Mr. Morgan will offer the material that Wallops cannot use to a university in accordance with the FPMR 101-11.408.3, "Donations for Preservation and Use" that I sent to him 10-5-77. Nina Chaney. NC</p>		

sent to NNG, NNV and agency 11/10/77
NNVS has records.
