

Request for Records Disposition Authority

Records Schedule Number DAA-0266-2014-0009
Schedule Status Approved

Agency or Establishment Securities and Exchange Commission
Record Group / Scheduling Group Records of the Securities and Exchange Commission
Records Schedule applies to Agency-wide
Schedule Subject Tips, Complaints, and Referrals (TCR) Intake and Resolution System
Internal agency concurrences will be provided No

Background Information The TCR Intake and Resolution System (TCR System) is an SEC-wide system that centralizes all tips, complaints and referrals (TCRs) received by the SEC alleging possible violations of the federal securities laws. The mission of the SEC is to protect investors, maintain fair, orderly, and efficient markets, and facilitate capital formation. In the pursuit of its mission, the SEC receives hundreds of thousands of incoming communications through a variety of means into each of the SEC's divisions, offices, and regional offices. These communications include information from the general public, attorneys and members of the regulated community, which includes, but is not limited to, broker-dealers, investment advisors, self-regulatory organizations (SROs), and public companies. Typical examples include information regarding misconduct or risks involving public companies, securities professionals, registered entities and associated persons, as well as frauds affecting individual investors such as Ponzi schemes or boiler-room operations. Commission personnel are required, pursuant to the Commission-wide Policies and Procedures for handling TCRs, to enter any communication received from the public, another government agency, or a self-regulatory organization (SRO) that qualifies as a TCR. While the identification of a TCR is not always obvious and may require professional judgment, if in doubt, SEC staff must treat the matter as a TCR and enter it into the TCR System. In addition, the SEC receives referrals from SROs based on the information collected by the SROs and reported to the SEC for further consideration.

The TCR System collects and stores TCRs in a central database and work flow system, and makes them accessible to authorized SEC staff. The centralization and ability to establish connections among TCRs enhances the SEC's ability to identify potential violations of the federal securities laws and to ensure appropriate

and timely responses to allegations of wrongdoing. The TCR System is governed by the TCR Oversight Board, whose objectives and responsibilities are outlined in its Charter. The TCR System is an important surveillance and management tool, but the ability of the TCR System to further the SEC's mission ultimately depends on the diligence and good judgment of those who enter, evaluate and resolve TCRs. The Commission-wide Policies and Procedures for handling TCRs helps ensure the effective functioning of the TCR System by outlining the proper methods, analyses, and considerations that all SEC personnel should undertake when entering and handling TCRs.

Users enter the TCR information from www.sec.gov through TCR intake forms, along with any related documents. The external application will invoke a webservice to submit the intake information to the internal workflow system. TCR information can also be submitted internally by SEC staff, when the tips and complaints arrived at the SEC via hard copy, fax or email. Specifically, internal users enter free form text through TCR internal application. In connection with intake into the internal portal, all hard copy documents will be scanned in via the SEC's document management center and intake will be performed manually by specially trained paralegals, following the Commission-wide and Division and Office specific TCR Policies and Procedures. TCRs received by SEC staff ("TCR Entries") through the external portal and those arriving for internal portal entry, and records related thereto may include, but are not limited to, documents generated prior to the opening of a Matter Under Investigation (MUI) or commencement of an exam. All TCR Entries will be assessed and reassigned to the respective groups for consideration for MUI or exam opening. This is done by invoking a business process management (BPM) process. NOTE: Information or documentation contained in TCR Entries that becomes part of an examination, investigation, or other Division/Office-specific business purpose must be retained in accordance with the NARA-approved records retention schedule covering the examination, investigation, or other business process of the assigned Division/Office. At the time of the first scheduled deletion, the 20-year retention period will be re-examined before deletion takes place to determine whether or not the 20-year time frame is sufficient, or if a longer retention period is needed for trends analysis, or other historical purposes. </p> <p data-bbox="375 1464 930 1495">Final Disposition Temporary</p> <p data-bbox="375 1517 865 1549">Item Status Active</p> <p data-bbox="375 1570 821 1602">Is this item media neutral?
