

INACTIVE - ALL ITEMS SUPERSEDED OR OBSOLETE

Schedule Number: N2-266-93-002

This schedule provided disposal authority for records previously accessioned into the holdings of the National Archives.

Per NARA Directive 1540 – *Reappraisal and Deaccessioning of Archival Federal Records*:

An internal disposal is the permanent removal of a discrete set of an accessioned series of records from NARA's physical and legal custody, from any number of physical locations (up to and including all physical locations), because they have been reappraised as temporary, without affecting the existing disposition authority for any remaining records. This removal can result in the records being destroyed, permanently returned to an agency, or donated to another organization.

It is assumed that the schedule was implemented after the record scheduling process was completed (concurrence by the agency, notice to the public via the Federal Register, and approval by the Archivist of the United States).

	<u>Registered Offering Statistics (or Registration and Offering Statistics, ROS)</u> This collection of data was initially received from the SEC in 1973. Between 1973 and 1989, the Center received 21 updates to the ROS. The Directorate of Economic and Policy Analysis has terminated support for the ROS, therefore the Center can expect no further accretions to this series. From frequency distributions run on a sample of the datafiles in the Center's collection, we determined that only the most recent version of the ROS should be permanently retained by the National Archives. The most recent version covers the period January 1970 through December 1988 and appears to contain all records appearing in previous versions of the ROS. Disposition: Destroy immediately all version of the ROS except the most recent.	NN373-207
