CHAPTER 14. BUDGET AND PERFORMANCE ANALYSIS

PROGRAM FILES

1. General. This chapter provides documentation, maintenance, and disposition instructions for files accumulated in formulating and executing fiscal year budgets and in coordinating the development and application of performance analysis systems and techniques. These instructions are contained in:

   a. Appendix 14-A. Budget Formulation and Execution Program Files
   b. Appendix 14-B. Performance Analysis Program Files

2. Reserved.
This appendix describes files created in procuring funds to finance the operation of GSA and in controlling funds within the amounts and limits specified in appropriations, apportionments, and other external and GSA administrative policies. Budget program files are created as a result of responsibilities outlined in the GSA Organization Manual (OFA P 5440.1) and pursuant to the provisions of orders and handbooks in the 2200 subject classification series. They are accumulated by the office responsible for agencywide budget formulation; elements of Central Office services and staff offices responsible for coordinating budget administration on a service- or staff office-wide basis, normally the Administrative Office; and Budget Divisions of regional offices. Documents accumulated by other offices in handling budgetary actions within their assigned program areas are covered by instructions in appendix 9-C.
