\*\*\* This appendix describes program files documenting payroll operations. Payroll operations encompass the payment of all entitled employees, proper disposition of authorized deductions, creation of adequate and reliable payroll records in support of valid payments, and the preparation of reports for management and budget purposes. These files are hereafter referred to as payroll accounting files. Disposition of payroll accounting files is based on audit by, and receipt of report of notification of audit from, the General Accounting Office (GAO). In this connection, all documents relating to exceptions taken by GAO, even though specifically authorized for destruction elsewhere in this appendix, shall be retained until the exception is cleared. This appendix is not applicable to related documentation accumulated by designated time and attendance clerks which is described in ch. 9.

16H5. Material control accounts. Documents reflecting the control accounts (generated by bookkeeping machines) for each type of material under each stockpile program except the Defense Production Act (DPA) program. These records provide source data for manually prepared reports and serve as the principal reconciling media between the general ledger accounts and the inventory accounts. Included are cards and related records.

Cut off when all material shown on card has been removed from the stockpile, hold 5 years, and destroy.

16H6 - 16H9. Reserved.

16H10. Manually prepared stockpile reports. Documents created to provide specially computed stockpile data or analyses and financial data not included in the computer system. Included are analyses of stockpile inventories; inventories of Commodity Credit Corporation (CCC) material in custody of GSA; reports of U.S. supplemental stockpile material; inventories of DPA materials; inventories of upgraded strategic and critical materials; and supporting data, but not source data files specifically described elsewhere in this appendix.

Destroy when superseded or obsolete.

16H11 - 16H14. Reserved.

16H15. Stockpile computer reports and listings. Machine reports and listings reflecting inventory quantity data developed from current transactions. Descriptions of, and disposition instructions for, these files are as follows:

a. Tonnage acquired and disposed during current month. This report shows the bulk weight for all acquisitions and disposals processed during the month by commodity and program.

Cut off annually, hold 5 years, and destroy.

b. Summary report of inventories in storage. This is a monthly report showing the summary of current balances remaining in storage by material, grade, location, program, and class.
