*Atomic Energy Labor-Relations Management Panel Records,
1949-1984*

Proceedings, exhibits, reports, correspondence, and similar documents describing the work of the Atomic Energy Labor-Relations Management Panel from 1949 to ca 1984. The Panel was established in 1949 by President Harry Truman to mediate labor-management disputes in the strategically critical atomic energy industry. The Federal Mediation and Conciliation Service (FMCS) sponsored and supported the Panel through most of its tenure. It was most active in the years between 1950 and 1970, and the records reflect that.

The AELRMP records comprise about 16 cubic feet or 16 standard size records center storage boxes. What follows is a brief description of the contents of each box. It is not possible to list contents by folder because many of the documents are not in labeled folders. They are loosely bundled or fastened, placed in envelopes, or simply laid in the boxes. Numbers in parentheses are Iron Mountain's tracking and box information.
