Archives Job NN165-58 cover the bulk of the records but all series of program records in WNRC are carried as "U" with the exception of reading and cable files and participant training records. The NARS disposal citations for those records are indicated below the item number in the draft schedule (attachment 2). USAID RECORDS DISPOSITION SCHEDULE

CHAPTER 1 INTRODUCTION

01001 Purpose: The Records Disposition Schedule contained in this appendix constitutes the sole authority for the retention and disposition of records at U.S.A.I.D. Missions, except in emergencies (see Paragraph 01009). Guidelines and procedures for implementing a records disposition program are given in Chapter 4, Handbook 21. Some information is repeated below for the convenience of the schedule user.

01002 Application of Schedule: A.I.D. Principal Officers are responsible for the proper application of disposal authorizations to records in their custody. Any questions concerning a disposal authorization or its application should be referred to the Records Management Branch A.I.D./W, M/SER/MO/PA/RM.

a. Scope: The disposal authorizations contained in this schedule apply to records of the type described regardless of the physical location at the U.S.A.I.D., e.g., central files; officially decentralized files; or working files. The authorizations apply to both classified and unclassified records unless otherwise specified. Care should be exercised in applying the schedule. If the U.S.A.I.D. finds it necessary or desirable to retain records for either a shorter or longer period of time than that prescribed in the schedule, it must seek authorization from the Records Management Branch. Such requests should provide a detailed justification for the exception.

b. Exceptions: Records pertaining to claims and demands by the Government of the United States or against it, or to any accounts in which the Government of the United States is concerned, either as debtor or creditor, shall not be destroyed under any disposal authorizations until such claims, demands, or accounts have been settled and adjusted in the General Accounting Office, except upon written approval of the Comptroller General of the United States. Records having value in connection with any pending or prospective litigation must be retained until such litigation has been terminated. U.S.A.I.D.s receiving requests for records or information therefrom in connection with litigation shall immediately inform the Office of the General Counsel. Posts are responsible for insuring against inadvertent destruction of any records of the types described above by segregating them from other files which may be destroyed under normal disposal procedures.

01003 Distribution: Distribution of the disposition schedule should be made so that all personnel having responsibility for records management or operations will have a copy or ready access thereto. It is the responsibility of the Records Management Liaison Officer to provide necessary distribution of the records disposition schedule.

01004 Arrangement: the schedule has been developed for the major functional records groups and are arranged accordingly. In several instances the same disposal authorization has been listed under two or more functional headings because of organizational and records maintenance variations at different U.S.A.I.D.s. Any record not authorized for disposal should be brought to the attention of the Records Management Branch.

01005 Description of Records: Each type of record included in the disposition schedule is described as precisely as possible to permit easy identification and to eliminate the need for paper-by-paper screening.

01006 Disposition Instructions: The disposition instructions for the majority of items listed in the schedule provides for destruction after a specified period of time. The retention period given is to be applied regardless of whether the file is blocked by fiscal or calendar year. When transfer or retirement is specified, the procedures specified in Handbook 21, Part II are to be followed.

01007 Method of Destruction: All classified and administratively controlled records authorized for destruction shall be destroyed in accordance with the provisions of Handbook 6. For the purpose of destruction, certain types of unclassified records such as personnel, or records containing detailed biographical data or any other records that might prove embarrassing or detrimental to operations if they were to fall into unauthorized hands shall also be treated as classified. The security regulations themselves do not constitute authority for the destruction of records, but only prescribe the methods by which destruction shall be accomplished. Unclassified material authorized for destruction, with the exceptions indicated above, may be destroyed, sold as waste paper, or otherwise disposed of in a manner consistent with local practices and security requirements.

01008 Record of Destruction: A record of the type and the volume of material destroyed should be maintained by personnel responsible for the records. A log showing the record series title (shown in the Schedule) of the records destroyed, the inclusive dates and the volume will suffice. this summary record should be sent to the U.S.A.I.D. Records Management Liaison Officer annually for inclusion in the Annual Report of Records Holdings.

01009 Emergency Destruction: Posts are authorized to destroy records in the event of extreme emergency or evidence of the possible development of such an emergency, in accordance with instructions governing emergencies.
