Form FMC-1 – This is an automated system designed around an electronic version of the Commission's Form FMC-1, Organization Information. Federal law requires that persons engaged in the waterborne transportation of the U.S. register with the Commission to notify of its tariff location prior to the commencement of common carrier services pursuant to a published tariff. Entities engaged in this industry include vessel-operating common carriers, ocean transportation intermediaries/non-vessel-operating common carriers, and marine terminal operators (MTO) and conferences. [These records are not subject to the Privacy Act.]

1 Master Data Files. All data are maintained on Commission's computer server located on premises. Files contain the electronic Form FMC-1 data arranged primarily by the individual organization FMC-assigned Regulated Persons Index (RPI) number. The Form FMC-1 and system are designed to collect basic registration data (e.g., Organization Number, Organization Legal Name, Organization Trade Name, street address of headquarters, contact person, fax, e-mail, type of business, and particularly, tariff location address, name of tariff publisher, street address of tariff publisher and contact information of tariff publisher).
