7. ITEM NO.
   Peace Corps Volunteer applicant folders are established for basically qualified individuals who apply for service. The files contain the application, reference forms, background information form, evaluation/interview forms, letters, medical or legal flag forms, and miscellaneous papers created during the application process. The records are filed by social security number in a modified terminal digit sequence.

   Beginning September 1, 1982, applicant files housed at Peace Corps headquarters will be microfiched to facilitate processing and faster retrieval or location of a record. For a period of six months, the hard copy will be retained as a backup to allow for resolving unforeseen problems in copying and producing hard copies. On April 1, 1983, the hard copy of files that should have been destroyed during the monitoring period will be destroyed.
